**Treating the environment with care** -- To prepare a good soup, you pay attention to the ingredients. To treat the environment with care, you pay attention to the little things. For example, don't put shredded paper in the trash. Give it to the Recycle team. Remember the four types of recycle material -- paper, plastic, aluminum and cardboard. And when considering the local environment, don't throw loose trash in the dumpsters. Bag it so it doesn't ride the Oklahoma wind. For more advice on taking care of the Vance environment, contact Shannon Elledge, [shannon.elledge.ctr@us.af.mil](mailto:shannon.elledge.ctr@us.af.mil).
