Beneficiaries enrolled in TRICARE Prime or Plus in the direct care system are empaneled to a specific Military Treatment Facility (MTF) Primary Care Manager (PCM) and resourced based on the standards identified in the Defense Health Procedural Instruction 6025.11, Processes and Standards for Primary Care Empanelment and Capacity in MTF, dated 9 October 2018.
2. Space-Available, also known as Space-A primary care, is expected to be minimized or not available in all clinics within the MTF. The following categories are "Must Sees" by the MTF regardless of Space-A internal policies.

4. Patient safety is our primary focus; therefore, Space-A appointments will be for acute medical issues only. Chronic medical conditions will not be managed under a Space-A program and a patient's routine care must be treated by their PCM off-base regardless of whether they have been previously seen at the MTF.

5. Appointment availability will be determined by calling the Centralized Appointment line after 1100 the day of the appointment for an Acute (24HR) within the Clinical Medicine and/or the Pediatric clinic.

The clinic front desk will ensure the patient has a current DD Form 2569, Third Party Collection Program – Record of Other Health Insurance Form is on file.

Additionally you will need to get a new ID Card as the medical date on the ID card expires on 65th birthday. Questions contact the Vance 71st Medical Group. Here is the link: www.tricare.mil/tfl

OP-MEDICATION SIDE EFFECTS: One of our staff experienced a not widely known side effect of a medication that made his allergic reaction to pollen so bad he could not stand being outside. Suggest you check whether the maladies you suffer from may be a side effect of your medication. It is simple enough to google a medication's side effect if you request this information by product name. Our staff member discovered the side effects wore off about 18 hours after he stopped taking the medication. Physicians pretty much rely on the patient to inform them if they are suffering ill effects from a medication. You may find more medication to treat additional symptoms isn't the solution.

-INCOME TAX ITEMS:

OP-Oklahoma Tax Commission Requests for Documentation Proving Withholding – If the Oklahoma Tax Commission sends you a letter requesting documentation of your withholding, the process is simple. Either mail in copies of your original W-2s, 1099-Rs, with OK withholding or scan these documents and use the tax commission's website. The website is oktap.tax.ok.gov. Select submit documentation. Then enter the OK Tax Commission's Letter ID and thereafter your email address. They will want to know the total withholding you had for the state and then they will ask you to attach each document until you reach the total withholding you entered.

OP-Tips for Preparing for 2026 Tax Season – Save your charitable contribution cash receipts to IRS recognized charities. Single tax filers may deduct up to \$1,000 if they do not itemize. Married filing jointly filers may deduct up to \$2,000 if they do not itemize. Both deductions apply only to cash donations. People who buy a new vehicle qualifying for the new vehicle loan interest deductions need to provide the date of purchase, VIN number, and the interest amount that qualifies for the deduction. People who already qualified for their new vehicle loan interest deduction in 2025 still need to provide the date of purchase, VIN number, and the interest amount that qualifies for the deduction also. The tax software we use will not populate the previous year's information. Only new vehicles assembled in the US qualify for this tax deduction (VIN must start with 1,4,5,7F through 7Z, or 70). Qualified overtime eligible for the deduction will be annotated on your W-2 with the code TT. Tips earned as part of a business still need to be reported and Medicare and Social Security taxes still apply to the amount. Income taxes will not be assessed on tip income provided the amount is less than \$25,000. The standard deduction for 2026 for single filers is \$16,100 and for married filing jointly filers is \$32,200. Please check your December bank for your year-to-date interest paid by your bank. Financial institutions are required to provide you with a Form 1099-INT if they paid you \$10 or more in interest. The IRS expects amounts \$0.50 or more to be reported. Those who accept electronic statements need to either visit their bank or print their own 1099-INT after logging into your account. In general, every tax preparer will want to know why an investment you had last year is not represented in the current year tax documents. Be prepared with an answer.

OP- TAX TIP 1: – If you sold investments, your tax bill in April may reflect a penalty if you haven't paid sufficient taxes. Net capital gains over \$6,666 exceeds the threshold. Use Form 1040-ES to make an estimated payment prior to Jan.15, 2026, and avoid the penalty. Figure 15% of your capital gains for the payment. Oklahoma residents use OW-8-ES to make similar payments. Figure 4.5% for the state's share. Those who are close to the deadline should request hand cancellation from the post office. For more information, contact Greg Butterfield, 580-213-7859.

OP- TAX TIP 2- The IRS automatically rejects returns where the names do not match what is on file with Social Security. First time filers should make sure their first name matches what is on their Social Security card. Newly married couples should also use the name on their Social Security cards when they file. If you have not applied for and received a new Social Security card with your married name on it, use your previous name when you file. For more information, contact Greg Butterfield, 580-213-7859.

OP- TAX TIP 3- The IRS expects interest over 50 cents be reported on your tax return. Most banking institutions have a Year-to-Date (YTD) interest earned reported on their December statement. If your bank does not have this, you can get a close approximation by multiplying your December interest times 12. Should your annual interest exceed \$10, you will receive a Form 1099-INT statement from your institution. Those who receive their statements electronically may have to log-in to their account to get this statement. For more information, contact Greg Butterfield, 580-213-7859.

NP-TAX TIP 4- There is no penalty for filing after April 15 provided the IRS owes you a refund. If you are awaiting information or if your tax preparer is backlogged, please request a six-month extension utilizing Form 4868. If requested, the extension is automatically approved. The IRS may legally charge interest if you owe them money and fail to pay by April 15. The failure to file penalty only applies if you owe the IRS money and you fail to apply for an extension.

OP-NO TAX ON OVERTIME: The new no tax on over-time deduction amount may or may not be reflected on your W-2 for 2025. Employers may elect to provide a separate document to reflect the amount to deduct on your taxes. The deductible amount refers to the "premium" portion of the overtime—the extra "half" paid for "time-and-a-half" wages. In 2026, the deductible amount will be reported in box 14 of your W-2 with the symbol TT. Should your employer provide a separate document, make sure you provide it to your tax preparer. Before you sign your return, please ensure the deduction is taken.

OP- NO TAX ON OVERTIME LIMITS – The 2025 tax deduction for overtime is limited to \$12,500 for single filers and \$25,000 for married filing jointly. The deductible amount refers to the "premium" portion of the overtime—the extra "half" paid for "time-and-a-half" wages. The deductible amount is prorated if your modified adjusted gross income is above \$150,000 filing single and \$300,000 married filing jointly. Taxpayers utilizing Taxslayer software (which includes our office) should delay filing until mid-March if they expect an overtime deduction to be calculated correctly. A software fix should be addressed by then.

OP-ADDITIONAL DEDUCTIONS: The IRS has created Schedule 1-A *Additional Deductions* to annotate eligible deductions for Tips, Overtime, Car Loan interest, and how much of the additional \$6,000 (\$12,000 for married filing jointly) for seniors 65 or older you qualify for. Please review this schedule prior to submitting your return to the IRS if any of the deductions apply to you.

OP-INCOME TAXES-POSSIBLE TAX BREAK ON A NEW VEHICLE PURCHASE: Those who purchase a new vehicle made in the US from 2025-2028, may be entitled to a tax deduction for the interest paid on the loan. The vehicle has to be new, assembled in the US, under 14,000 lbs, and your Modified Adjusted Gross Income must be under \$150,000 (Single) or under \$250,000

(Married Filing Jointly) for any deduction to apply. TaxSlayer software has published their reporting guidance which requires the purchase date, the Vehicle Identification Number (VIN), and the interest paid on the loan. The loan interest should be reported to you on a Form 1098-VLI (Vehicle Loan Interest). This deduction does not apply to a vehicle used for business, a leased vehicle, a used vehicle, or vehicle purchased prior to 2025. This deduction is also temporary, so the deduction may not apply in tax year 2029. According to a Consumer Reports article, VINs that start with 1, 4, 5, 7F through 7Z, and 70 are manufactured in the US. Please notify your tax preparer if you have a vehicle loan that qualifies when you file taxes.

OP- INCOME TAXES-TRUMP ACCOUNTS FOR CHILDREN: Children (US citizens) born between 2025 and 2028 are entitled to one-time \$1,000 federal contribution to their Trump Account that functions like a Traditional IRA. Children born prior to this time period are not entitled to the federal contribution, but parents or relatives may collectively contribute up to \$5,000 per year into a Trump Account for a child. There is no financial incentive for anyone to do this as part of the current law and \$5,000 is the limit from all sources except the federal government. Once a deposit is made into a Trump Account, there is no current method to make withdrawals other than a rollover into another account or to correct contributions that exceed the limit for the account. Rollover to a Roth IRA is currently prohibited until the child reaches the age of maturity. Federal payments to Trump Accounts are not expected to take place until 2026. A child may make a withdrawal upon reaching the age of maturity, but these withdrawals are subject to the same 10% penalty for withdrawal before age 59 ½ and are subject to income taxes. What exceptions exist for the penalty are the same as for a Traditional IRA. This law is also temporary, and the federal contribution expires after 2028. Those interested in creating a Trump Account for a child should ask their financial institution if they provide this service. The method of requesting the federal contribution has not been advertised yet, but a financial institution's routing number & account number will be necessary for the deposit of federal funds. **NP-**These accounts may be opened no sooner than July 2026.

OP – INCOME TAXES-SOCIAL SECURITY STILL TAXABLE BUT SENIORS OVER 65 HAVE A NEW DEDUCTION: Social Security is still taxable under the new tax law for years 2025-2028. The new tax law includes an additional \$6,000 deduction for seniors age 65 and older, which can potentially reduce the taxable portion of your benefits. Joint returns where both individuals are over 65 would have an additional \$12,000 deduction. This deduction phases out for single filers with an adjusted gross income (AGI) exceeding \$75,000 and joint filers with an AGI over \$150,000. No deduction will apply if a single filer AGI exceeds \$175,000 and if a joint filer AGI exceeds \$250,000.

OP – INCOME TAXES-TIP INCOME IS STILL REPORTABLE ON TAX RETURN: Employees who receive tip income still need to report it when filing taxes. The new tax law for years 2025-2028 applies a deduction for the amount reported; however, social security and medicare taxes will still be assessed on this income.

Please notify them by mail if you cannot call or visit them in person to update your address. Please make these changes prior to the end of the year, so your tax documents find you.
